

**Instructor:** Prof. Nausheen R. Shah, Assistant Professor  
**Office:** 362 Physics  
**E-mail:** [nausheen.shah@wayne.edu](mailto:nausheen.shah@wayne.edu)  
**Office Hours:** F 2-3 pm or by appointment (subject to change).

**Class Details:** 08/30/17 - 12/19/17

**Location and Time:** 1117 Science Hall, M, W, F 10:30 - 11:20 AM

**Text:** Ostdiek & Bord: "Inquiry into Physics", 7th edition

**FINAL EXAM: Wed, Dec 13, 10:15AM – 12:15PM** NOTE SPECIAL TIME

If you do not need a hard copy, you can get a free ebook with the enrollment to WebAssign. We will also be using clicker (iClicker-2) for reading quizzes and other assignments.

### Assignments and Exams:

Physics can only be learned by engaging with the material. To help you do that, you will be asked to read the text before each lecture and to complete regular assignments. These assignments will be accessible via the WebAssign and the Blackboard systems. You therefore need access to a computer. If you do not own a computer, the undergraduate library has a computer lab for your use or you can use computers available at every public library.

- Assignments:
  - Web-based: Need to register for WebAssign, Wayne State ID, access to Blackboard.
- In class: Reading, quizzes and other assignments (need to activate iClicker-2)
- Exams: 3 midterm exams (two best count towards grade), one final exam
- Additional homework: Not counted for grade, but necessary preparation for exams

Grading schedule:	With lab	No lab	Grade determination: A: 90+ %, A-: 85-89% B+: 80-84%, B: 75-79%, B-: 70-74% C+: 65-69%, C: 60-64%, C-: 55-59% D+: 50-54%, D: 40-49% F: below 40%
WebAssign	16%	20%	
Two best midterm exams	44%	50%	
Final Exam	30%	30%	
Lab	10%	N/A	
Clicker questions	15%	15%	
<b>TOTAL</b>	<b>115%</b>	<b>115%</b>	
<b>OTHER BONUS</b>			
Third hourly exam	4%	4%	
Planetarium	1%	1%	

Hints for getting a good grade:

- COME TO CLASS!!
- Do the reading assignments, quizzes and homework!
- *You* are responsible for your grade. You will get a good grade if you come to class and do your work diligently. No excuses will be accepted at the end of the semester. Your grade will be determined fairly by your grades on the assignments and exams and *nothing else*.

### WEBASSIGN:

Weekly to bi-weekly assignments will be posted on WebAssign. (<http://webassign.net>), which provides online homework submission and grading. If you buy the textbook in the campus store, it should include a WebAssign access card valid for two semesters. Access codes can also be acquired separately from WebAssign; *in this case you will have access to a free interactive ebook*. Once you have the code, you should enroll in WebAssign. This class is called PHY 1020.

The class key is **wayne 3452 9444**. Please also enter your student ID when registering to WebAssign.

### **CLICKER:**

If you don't have i> Clicker, it can be purchased at the University bookstore. You need i> Clicker-2 to be able to enter numeric characters. **The last day of clicker registration is Mon, September 11.**

### **PLANETARIUM SESSION:**

Your instructor, along with the Department of Physics and Astronomy, is offering you a chance to learn more about the night sky and earn a bit of extra credit in the process. During the semester several 55 minute sessions will be held in the Wayne State University planetarium (in 0209 Old Main) for which you can earn 1% extra credit. For more information go to <http://planetarium.wayne.edu/shows/index.php>

### **THE RULES**

Please review these rules carefully.

1. **Make-up midterm exams:** There will be **NO make-up** midterm exams for any reason. Since we count the best two out of three midterms, if you have to miss one, we will just count that one as the one that will not enter your main grade. If you miss more than two midterms, you should consider dropping the class.
2. **Make-up final exam:** There will be **NO make-up or early** final exam and it cannot be dropped. The date & time of the final exam is published in this syllabus and it is your responsibility to arrange work schedules, vacations etc., in such a way that you can take the final. If that is not possible, consider taking this class at a later date when you have sufficient time.
3. **Laboratory credit:** If you sign up for the 4 credit version of this class you are expected to participate in the laboratory. If you are signed up for the lab, you **MUST** complete all your lab assignments. You can drop two lowest scored lab reports, i.e. to have 10 out of 12 labs. However, if you miss more than 3 lab reports (i.e. submit less than seven reports altogether), you will receive a FAIL (F) for the entire course, even the lecture portion.
4. **Incomplete:** As a rule I will not hand out any incomplete grades. Make sure to complete all necessary work during the semester or, if that is not possible, drop the class.
5. **Non-participating students:** If you are enrolled in this class, but do not show up or produce insufficient work, you will receive a Fail grade (F). This grade is final and will not be changed at a later date. So, if you decide to not show up to class anymore make sure to drop the class!!
6. **Grades:** Grades will be determined by the scheme in this syllabus on a numerical basis only. I will not accept any special pleading at the end of the semester. You know what grade you need, so work for it!
7. **Bonus:** There will be no extra bonus beyond what is published in this syllabus.
8. **Mathematics:** This course expects that you can do arithmetic and simple algebra roughly at the level of high school that is required by the university for you to graduate. If you are not able to do algebra on this level, please consult a book, such as Schaum's outline "Beginning Algebra".
9. **Cheating:** Any actual or attempted cheating will automatically result in a Fail grade (F) for the entire course, and a report to the university for further disciplinary action.

**SCHEDULE: Subject to change, except for exam dates. Latest version will be posted on the web.**
